

Sanjeet Biswas

Senior Software Developer · Portal Development Lead

✉ sanjeetbiswas1995@gmail.com ☎ +91 78429 94836 📍 Bangalore, Karnataka, India

👤 PROFILE

Portal Development Lead with 8+ years of experience building scalable, secure web platforms for global telecom and fintech products. Expertise in Java 8+, Spring Boot and Angular, spanning architecture, PoCs, performance optimization, security hardening and delivery. Passionate about high-quality, secure and efficient applications.

📁 WORK EXPERIENCE

Senior Software Developer — Netcracker Technology

Jun 2022 – Present

Client: Rakuten Group, Inc. (Tokyo, Japan)

Portal Development Lead delivering scalable web portals using Java 8+, Angular 2, Liferay, PostgreSQL and Wildfly. Owned requirement analysis, solution alignment, major change requests, performance tuning and team management.

Key Contributions

- Requirement analysis, feasibility checks, PoCs, estimations and delivery planning.
- Solution alignment with cross-component teams and Solution Architects; CR design reviews with BA.
- Major change request implementation, dev testing and defect troubleshooting.
- Managed the portal dev team and Managed Services (MS) issues; load-testing analysis & optimization.
- Security: cookie signing for secure sessions; API request signing against tampering/replay attacks.

Projects

Self-Service Portal (e-commerce) · Ecare (dashboard management) · POS portal (shop representatives)

Tech Stack

Java 8+ · Angular 2 · Liferay 7.4.3 · Wildfly 23 · PostgreSQL

Software Developer — IBM India Pvt. Ltd.

Mar 2017 – May 2022

Client: Federal Public Service Finance, Belgium

Java Developer for 5 years on EMCS (Excise Movement Control System), gaining strong hands-on experience across the Java enterprise stack, web services and databases.

Tech Stack

Core Java · JPA · Hibernate · JSP · JAX-WS/SOAP · RESTful API · Oracle WebLogic · Oracle · IBM DB2 · MongoDB · MySQL · SAX/STAX/DOM · Log4j · SOAP UI

🔧 R&D · INNOVATIONS · POCS

- **Single Sign-On** between Netcracker & Rakuten e-commerce portal with token-based auth, session management and MFA (OTP via phone/email).
- **Universal Links** for Android/iOS — deep-link into the Rakuten mobile app with browser fallback (Java Filters, AASA file).
- **CMS PoC** for email/SMS templates, localizations and carousels (Kafka Topics, Liferay Web Content, PostgreSQL, RESTful API).

🏆 HACKATHONS & PROJECTS

- **WhatsApp E-commerce Onboarding Chatbot** (AI Hackathon) — Meta Webhooks automating registration, orders and support (Python, Django, ML profiling).
- **AI/ML Parking Allotment System** — real-time availability prediction with instant notifications (Python, ML, Angular 2, ultrasonic sensors).
- **Inventory Management System** — JavaFX app with barcode scanning for stock, orders and billing; migrating to Flutter/Firebase.

SKILLS

Languages/Frameworks: Java 8+, Spring Boot, Angular 2, TypeScript, JavaFX

Messaging/DevOps: Kafka, RabbitMQ, Docker, Kubernetes

Learning: Django/Python, Flutter/Dart/Firebase, Flowise AI

Databases: PostgreSQL, Oracle, MongoDB, SQLite, MySQL, DB2

Styling: LESS / CSS

Languages: English, Hindi

EDUCATION

B.E. — Electronics & Communication Engineering, Pondicherry University

2012 – 2016

Higher Secondary — GMSSS, Aberdeen, Port Blair

2010 – 2012
